

# Gas Spring Identification

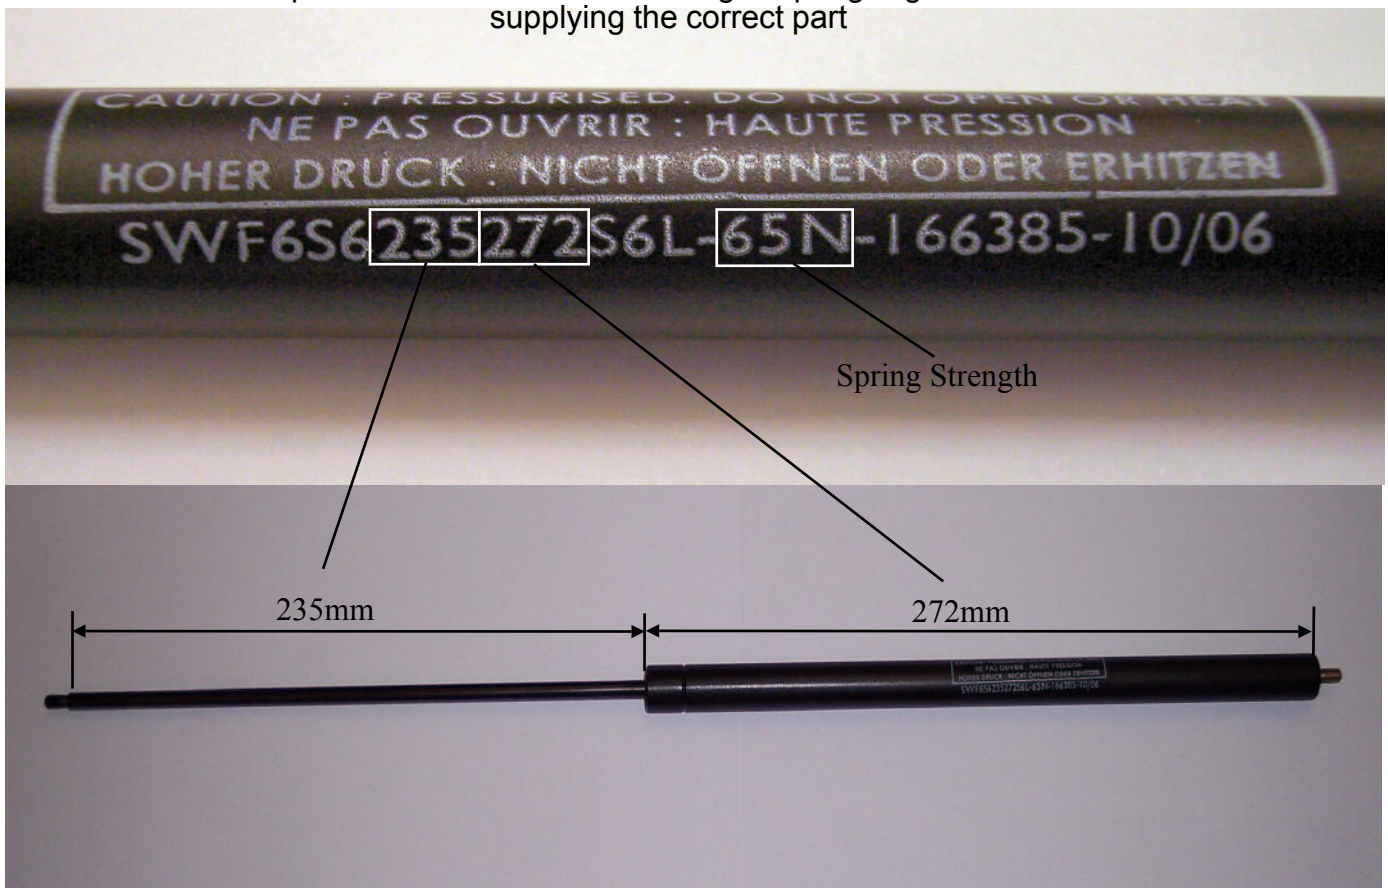

Rev4 April 2014

Over the various models the length and power of the gas springs fitted to the SL range of steps has changed numerous times. As a guide the following should be used:

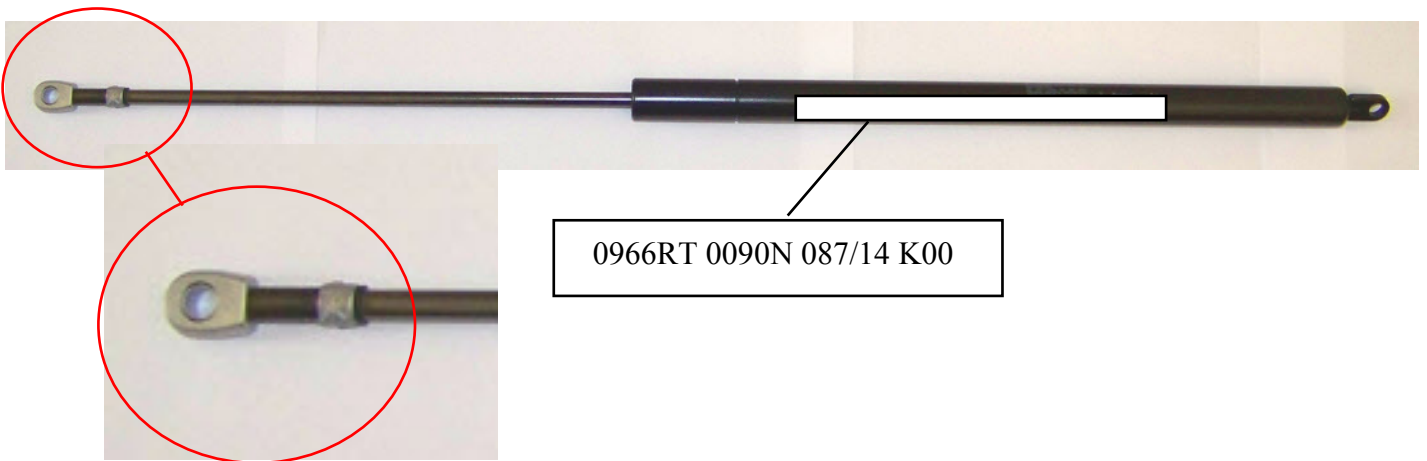

Step	Description	Product Code
SLE450	200mm piston x 235mm barrel x 75N	SPSLE12010042
SLE550	235mm piston x 272mm barrel x 65N	NO LONGER AVAILABLE
SLM450	200mm piston x 235mm barrel x 75N	SPSLM12010052
SLM450	As above with end fittings	SPSLM12010188
SLM550	250mm piston x 285mm barrel x 90N	SPSLM12010315
SLM600	250mm piston x 285mm barrel x 90N	SPSLM12010315
SKM600	250mm piston x 285mm barrel x 90N	SPSKM12010045
SKM600-5	Locking Gas Spring (See next page)	SPSKM12010316
LXM600-2	60mm piston x 110mm barrel x 200N	SPLXM12010046
LXM600	90mm piston x 108mm barrel x 100N	SPLXM12010047
F400	175mm piston x 195mm barrel x 400N	SPF40012010318

In all cases it is important that the number of the gas spring is given to confirm that we are supplying the correct part
